Subject: Comments

I am writing because I am concerned about the way food is grown by giant agribusiness farms that Monsanto helps create and fund.

I have been poisoned by pesticides. I have to live in isolation now, My life is ruined. I could write pages and pages about this, but I don't have time because the only things I can do now are try to keep my sick body functioning.

PLEASE STOP the allowing or regulatory promotion of any business practices that support pesticide use. In 25 years, we will look back at this time dumbfounded at the way we poisoned our world.

I'm dying from this. I wish my life was important enough to matter to the 'Powers-that-Be' in this issue, to make a difference in the way you think about it.

Thank you for giving me the opportunity to comment.

Sincerely,
Katrina Davis
